

DISC PLOUGH

Advantages :

- In conformity with the soil conditions it is being produced with 2, 3, 4 & 5 bottom versions.
- It is directly mounted to the tractors.
- Extra Heavy-duty pipe frame has high trash clearance allowing the plough to operate under heavy crop residue.
- The disc plough is designed to work in all types of soil for basic functions such as soil breaking, soil raising, soil turning and soil mixing.
- It is used to open the new fields and to process the stony areas.
- It can be used easily at rocky and rooted areas.
- It is especially useful in hard and dry trashy land conditions and in soils where scouring is a major problem.
