

FOUR BOTTOM FIXED PLOUGH

Four Bottom Fixed Mould Board Plough is a tractor hydraulic operated implement and has been designed for ploughing and farming in smaller sized fields. Provision of sturdy main frame makes it suitable for varying soil conditions giving the complete inversion of the soil satisfactorily for different kind of crops. It is widely used for farming especially in Grape yards and Horticulture.

SPECIAL FEATURES

- » No maintenance cost.
- » Easy to mount on tractors with three point linkages.
- » Easy to operate.
- » Spares readily available & easily interchangeable
